

Acceptance speech – Kobkaew Bumroongthai

I am so honoured to be here tonight and grateful to be the recipient of this award.

I would like to say thank you to my sponsor, Thai Government and OCS Group for giving me the opportunity to come to study in the UK.

Next, I would like to thank my supervisor, Dr. Neena Kalia, whose leadership and vision steered this project, and thank you to the amazing staffs in medical school at the University of Birmingham. It was always a pleasure coming to work every day with such lovely and engaging people.

Next, I would like to thank my Mom and Dad, thank you for always believing in me and for driving me to pursue my dream in medical science.

I hope my work will highlight the possibility of using Mesenchymal stem cell to cure or protect heart diseases. Thank you very much.
